Professional Summary

Computer Science undergraduate (B.Tech, CGPA 8.1) with hands-on experience in full-stack development using ASP.NET Core, Angular, C#, and MySQL. Strong foundation in OOP, DBMS, and RESTful APIs with experience building scalable applications including authentication, cart, and order systems. Passionate about developing efficient backend systems and responsive frontend interfaces.

Skills

Frontend Technologies:	Angular (Latest), TypeScript, HTML5, CSS3, JavaScript (ES6+), RxJS
Backend Technologies:	ASP.NET Core Web API, C sharp, Entity Framework Core, RESTful APIs
Database Management:	MySQL, SQL Server ,MONGO DB
Programming Languages:	C sharp, JavaScript, Java
Tools & Platforms:	Git, GitHub, Visual Studio, VS Code, Postman, Swagger
Authentication & Security:	JWT Authentication, Role-Based Authorization
Core Concepts:	Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks
Architecture & Practices:	MVC Architecture, Layered Architecture, API Design, Dependency Injection

Projects

PharmaMeds — Online Pharmacy Store

Tech Stack: Angular, TypeScript, ASP.NET Core Web API, C sharp, Entity Framework Core, MySQL

- Developed a user-friendly web application for browsing and ordering medicines online using Angular frontend and ASP.NET Core backend.
- Implemented shopping cart functionality with RESTful APIs and a clean, responsive UI.

StayEase — Hotel Management System

Tech Stack: Angular, TypeScript, ASP.NET Core Web API, C sharp, Entity Framework Core, MySQL

- Developed a full-stack hotel booking web application with features such as room selection, real-time availability, and secure user authentication.
- Implemented booking logic to prevent double booking using server-side validation and database transactions.

MediCare— Hospital Management System

Tech Stack: Angular, TypeScript, ASP.NET Core Web API, C sharp, Entity Framework Core, MySQL

- Developed a full-stack hospital management system with features such as patient registration, appointment scheduling, and doctor management.
- Built REST APIs using ASP.NET Core for managing patient records, appointments, and doctor data.

Hands-on Experience

.NET Backend Development Training

2 Months Program

- Completed hands-on training in backend development using ASP.NET Core, C sharp, and Entity Framework Core.
- Gained practical experience in database integration using MySQL and handling CRUD operations.

Angular Frontend Development Training

1 Months Program

- Completed hands-on training in frontend development using Angular, TypeScript, HTML, and CSS.
- Developed dynamic user interfaces using components, reactive forms, and API integration,Implemented routing, guards, and interceptors for security

Certifications and Achievements

- Certification in **Programming Essentials in C sharp** — Coursera
- Web Development Certification using Angular and ASP.NET — Udemy
- JavaScript — Scaler Academy
